

QUALITY POLICY

Aim

Cats Construction is committed to conducting our business in establishing and maintaining an integrated management system to control the quality of the company's management and Construction processes to achieve client satisfaction and an assured level of quality.

Objective

Cats Construction will comply with all relevant legislation and other construction industry and client specific requirements. Cats Construction are committed to provide quality products and services to all Clients.

Policy

Cats Construction will achieve our objectives by:

- We will maintain a Quality Management System that meets the requirements of the AS/NZS ISO 9001:2008 Standard.
- We will measure compliance with the system requirements and continually analyse and improve the effectiveness of our Quality Management System.
- Ensuring the involvement of all CATS employees, contractors and other personnel involved in activities pertaining to CATS operational activities, in taking responsibility for the quality of their own work.
- Adhering to company procedures ensuring that quality goals are met, and should problems arise, they are resolved promptly and in a manner that will prevent recurrence.
- Adopting a philosophy of continuous improvement, we will embrace feedback and new ideas to ensure a system that is continuously evolving and to set new benchmarks for excellence.

A handwritten signature in black ink, appearing to read 'J. H. ...', is written over a horizontal line.
